

BIOMEDICAL LABORATORY SCIENCE

12-15 JUNE

NML 2013 TRONDHEIM

UNIFIED DIVERSITY

The Nordic Congress for Biomedical Laboratory Scientists – NML-congress 2013 – will be held in Trondheim, Norway. The NML Congress is an important Nordic arena for professional updating, inspiration and networking for Biomedical Laboratory Scientists.

Scientific programme

The NML congress 2013 offers one plenary session and five parallel sessions each day, as well as several additional special sessions for in-depth learning in selected subjects. There will be lectures in the following subjects: Medical biochemistry, clinical pharmacology, haematology, coagulation, immunology, transfusion medicine, medical microbiology, histology and cytology, point of care-testing, preanalysis, biobanking, flowcytometry, education, management and ethics.

Language

The official congress language is English.

Posters and oral presentations

Abstracts for both oral and poster presentations at the NML Congress will be accepted.

Deadline for receipt of abstracts is 1 February 2013.

Download application form and more information from the congress website www.nml2013.no.

Travel, accommodation and social events

Trondheim is the historic capital of Norway and the Congress social programme of the congress will give participants the opportunity to explore the city. Trondheim is located in the middle of Norway with easy access by plane from Reykjavik to Trondheim Airport Værnes. Hotels and social events can be booked through the on-line registration.
